K6475849	07/28/04	#08	Customer was disappointed with the relay service. The CA was asked to speak louder, but he ignored the request. The medical business has received many relay calls and they depend on clear communication from CAs. With the CA being uncooperative, the caller and service provider were needlessly frustrated.	07/30/04	This CA ID # is currently unassigned. The customer did not want follow up, therefore further investigation is not possible.

K64110025	08/17/04	#26	Customer stated that she could not get through to relay service sometimes after dialing the VCO number. K64110198	08/18/04	#05	Customer stated that during the phone call, the CA interrupted and hung up.	08/18/04	Coached the CA not to interrupt or hang up on any relay call.

K64181264	11/08/04	#09	CA kept typing "GA" whenever the voice caller paused or went too fast instead of pacing him/her. K64262627	11/29/04	#21	Customer called to say that CA transferred the call to customer service without customer's request. Customer said the message came in garbled and so he asked CA to repeat it three times, but each time the message was garbled. After the third time, the customer found himself transferred to customer service.	12/03/04	Supervisor assisted CA with the call. CA disabled turbo code to attempt to correct the garbled messages. This step did not work, so the CA typed messages to the TTY user and they were all garbled. As a last resort, the supervisor requested the CA to transfer the call to customer service to see if they could help the customer. The CA followed the proper procedure for garbled messages.

**CONSUMER & GOVERNMENTAL AFFAIRS BUREAU REMINDS STATES
AND TELECOMMUNICATIONS RELAY SERVICES (TRS) PROVIDERS THAT
THE ANNUAL SUMMARY OF CONSUMER COMPLAINTS CONCERNING
TRS IS DUE FRIDAY, JULY 1, 2005**

The Federal Communications Commission's Consumer & Governmental Affairs Bureau reminds states and telecommunications relay services (TRS) providers that they must submit their annual consumer complaint log summaries for the 12-month period ending May 31, 2005, on or before July 1, 2005.

To assist the Commission in monitoring the service quality of TRS providers, the Commission requires state TRS programs and interstate TRS providers to maintain a log of consumer complaints that allege violations of the federal TRS mandatory minimum standards.¹ State TRS programs should report all complaints made to the state agency, as well as those made to the state's TRS provider. TRS providers that provide interstate TRS, interstate STS, interstate Spanish relay, interstate captioned telephone relay, VRS, or IP Relay are also required to submit complaint log summaries. These summaries are intended to provide an early warning system to the Commission of possible service quality problems. Additionally, this information allows the Commission to determine whether a state or interstate TRS provider has appropriately addressed consumer complaints and to spot national trends that may lend themselves to coordinated solutions. This information further enables states to learn how other states are resolving complaints.²

Complaint log summaries should include information pertaining to complaints received between June 1, 2004, and May 31, 2005. Complaint log summaries shall include, at a minimum, the number of complaints received that allege a violation of the federal TRS mandatory minimum

standards, the date of the complaint, the nature of the complaint, the date of its resolution, and an explanation of the resolution.³

We note that according to the data presented in the state complaint log summary submissions for 2004, approximately sixteen hundred complaints were reported that alleged a violation of one or more of the Commission's mandatory minimum standards for TRS. Over seventy-seven percent of all complaints alleged violations of the operational mandatory minimum standards and stemmed from the interaction between the calling party and the communications assistant (CA). We therefore remind TRS providers and state administrators that their CAs must, among other things, be knowledgeable of TRS procedures, follow customer's instructions, and continue to keep callers informed about the progress of their call.

All filings must reference CG Docket 03-123. States and interstate TRS providers who choose to submit by paper must submit an original and four copies of each filing on or before Friday, July 1, 2005. To expedite the processing of complaint log summaries, states and interstate TRS providers are encouraged to submit an additional copy to Attn: Dana Jackson, Federal Communications Commission, Consumer & Governmental Affairs Bureau, 445 12th Street, SW, Room CY-C417, Washington, DC 20554 or by email at Dana.Jackson@fcc.gov. States and interstate TRS providers should also submit electronic disk copies of their complaint log summaries on a standard 3.5 inch diskette formatted in an IBM compatible format using Word 97 or compatible software. The diskette should be submitted in "read-only" mode and must be clearly labeled with the State or interstate TRS provider name, the filing date and captioned "Complaint Log Summary."
